

MaxMount1500

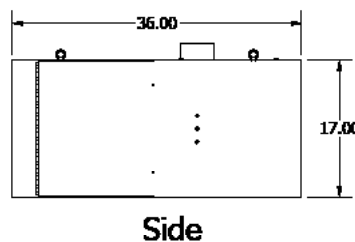

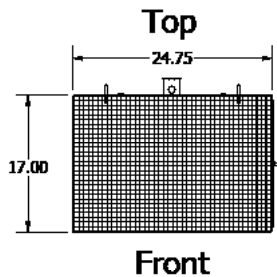

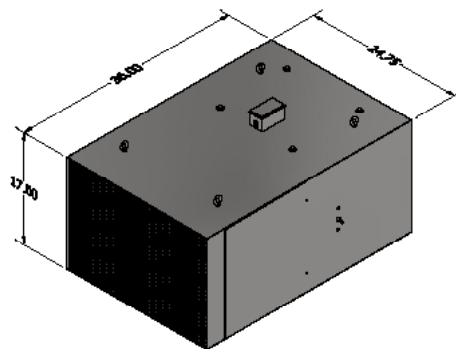

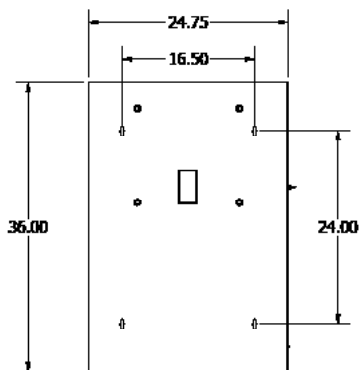

Commercial Air Purification System

When clean air is paramount, look no further than the MaxMount1500. Housed in 18-gauge steel, the MaxMount1500 can be installed in a variety of places including above a ceiling, below a floor or in a crawl space. The powerful airflow works with a CFM of 1250 and has the option of high or low speed, which can be easily changed with the click of a button. MatrixAir's Triple Filtering System means quiet, safe contaminant removal for any environment.
