## TRIPLE FILTERING SYSTEM

### Clean, safe, quiet.

Removes smoke, dust, mold spores, dust mites, viruses, pollen, chemicals, odors and more.

MatrixAir's three-phase approach to indoor air filtration may represent the ultimate in purification technology—environmentally safe, maintenance friendly, highly effective and in terms of design, simple in the extreme. The three-phase filter is at the heart of every MatrixAir system. A safe, flexible and highly effective approach to cleaner indoor air.

#### Phase 1 — Polyester Pre-filter

First line of defense. This filter removes larger particles such as lint, hair, dust and pollen.

#### Phase 2 — Activated Carbon Filter

The 'chemical' filter. This filter eliminates gases and odors by trapping and absorbing their molecules.

#### Phase 3 — HEPA Filter

Removes micro-particles such as smoke, dust mites, spores, mold, spray paint, ashes, even most viruses!
