

FlushMount2000D

Commercial Air Purification System

For large spaces with suspended ceilings, MatrixAir designed the ultimate unobtrusive performer, our best-seller, the FlushMount2000D. Powerful airflow coupled with our exclusive Triple Filtering System means quiet, safe contaminant removal. The front accessible panel allows for easy filter maintenance.

- Our industry best-seller
- Attractive 'flush' installation for suspended ceilings
- High performance for large spaces

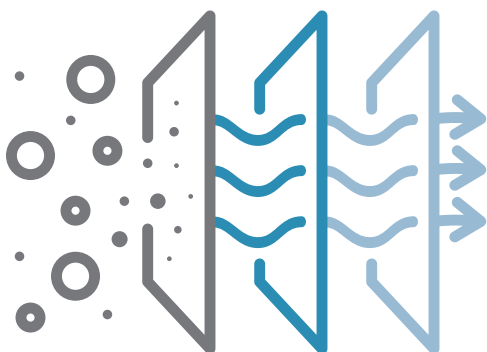

Dimensions	Electrical	Weight	CFM	Finish	Installation	Speeds
46.5"l x 23.75"w x 17"h	9.0 A, 120 volts, 8 ft. power cord, 3 prong grounded plug	135 lbs.	1650 CFM	White, Black	Drop ceiling	Dual speed

TRIPLE FILTERING SYSTEM

Clean, safe, quiet.

Removes smoke, dust, mold spores, dust mites, viruses, pollen, chemicals, odors and more.

MatrixAir's three-phase approach to indoor air filtration may represent the ultimate in purification technology—environmentally safe, maintenance friendly, highly effective and in terms of design, simple in the extreme. The three-phase filter is at the heart of every MatrixAir system. A safe, flexible and highly effective approach to cleaner indoor air.

Phase 1 — Polyester Pre-filter

First line of defense. This filter removes larger particles such as lint, hair, dust and pollen.

Phase 2 — Activated Carbon Filter

The 'chemical' filter. This filter eliminates gases and odors by trapping and absorbing their molecules.

Phase 3 — HEPA Filter

Removes micro-particles such as smoke, dust mites, spores, mold, spray paint, ashes, even most viruses!
